

Near Patient Testing Regular Blood Monitoring

Organisation >	West Hampshire CCG		Southampton City CCG	N Hants	NE Hants and Farnham CCG	Fareham & Gosport CCG and SE Hants CCG	Portsmouth CCG	How to use this document
Notes >	Formerly New Forest PCT	Formerly: Eastleigh N and Test Valley South and Winchester localities only			Not all drugs within the LSC have a shared care protocol in place, some fall under our 'amber star' category where a suitable information sheet is provided.	Available to all prescribers on the spine. This may change once the local CCG's intranet is fixed. All will be informed when and if this happens.		<ol style="list-style-type: none"> 1. Choose your organisation. 2. Click on your link for shared care guidance to obtain agreed monitoring. 3. For some drugs there are no shared care agreements see additional links below: <ol style="list-style-type: none"> A. NICE Pathway B. Clinical Knowledge Summary (CKS) C. Summary of Product Characteristics (SPC)
If you have a drug with a Shared Care Agreement the Links can be found here >	To access the shared care information click on the link below.				To access the shared care information click on the link below from the Surrey Prescribing Advisory Database (PAD): enter pad/ start here/ search/ shared care protocol.	To access the shared care prescribing information click on the link below: choose Medicines Management on the top tool bar/ Shared Care Prescribing is the last option at the bottom right.		B. Clinical Knowledge Summary (CKS) C. Summary of Product Characteristics (SPC)
