

# MicroGuide<sup>1</sup> Antibiotic Prescribing Guidelines App

NHS Hampshire and Isle of Wight Partnership of Clinical Commissioning Groups  
NHS Southampton City Clinical Commissioning Group  
NHS West Hampshire Clinical Commissioning Group  
Hampshire and Isle of Wight Sustainability and Transformation Partnership

The South Central Antimicrobial Network (SCAN) Guidelines for Antibiotic Prescribing

in the Community have been used across many CCGs in the South Region for a number of years including the

HIOW CCGs. These guidelines provide advice on the effective and safe treatment of infections commonly presenting in primary care and are based on NICE and Public Health England advice with input from local experts. From **15<sup>th</sup> June 2020**, the guidelines will be available on the digital platform **MicroGuide<sup>(R)</sup>** – this can be accessed as an app on a phone or tablet device (information below) or via a web viewer on a desktop computer or laptop ( url is <https://viewer.microguide.global/SCAN/SCAN> ).

For a transition period the guidelines can also continue to be accessed as a pdf on the [www.nhsantibioticguidelines.org.uk](http://www.nhsantibioticguidelines.org.uk) website as well as via MicroGuide<sup>(R)</sup>. To ensure that you have the most up to date version, please use the online link and do not save the pdf version on your computer, or print the guidelines. Please be reassured that both resources will be kept up to date while both are live online.

## What's included in the app?

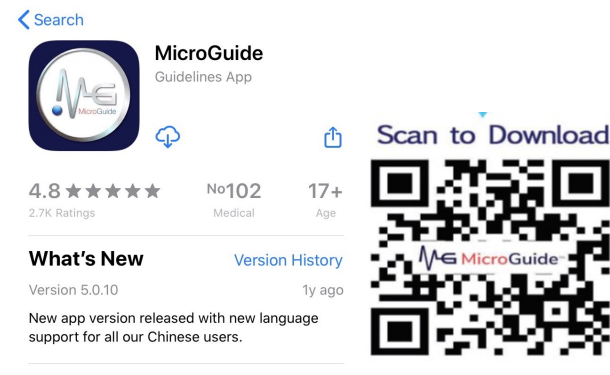

Guidelines to support antibiotic prescribing and antimicrobial stewardship in primary care

## How to download

The app is available to download on either the app store (apple) or google play (android)
